

April 8, 2009

TO: Stakeholders
FROM: Eric Yould
SUBJECT: 2009 Environmental Studies

As follow up to our Conceptual Study Plan Workshop on February 19, 2009 Hydroelectric Project, HDR Alaska has now completed a more detailed draft of the study plan for the 2009 Chakachamna Environmental Studies Program. The Detailed Study Plan (DSP) incorporates the comments and suggestions collected at our workshop or that were provided in writing following the workshop. We thank you for your helpful comments and suggestions.

We are making this study plan and supporting appendices available for your review at our website: www.chakachamna-hydro.com/documents . We are not expecting that agencies and stakeholders will review this document; however your comments are welcome.

HDR will be finalizing the DSP in mid-May. Therefore, should you have additional comments and suggestions please provide them by April 30 2009 to:

John Morsell
