

6 SUMMARY OF CONTACTS

In accordance with 18 CFR § 5.6(d)(5), this section summarizes contacts with federal, state, and interstate resource agencies, Indian tribes, non-governmental organizations, or other members of the public made in connection with preparing the PAD. TDX initiated stakeholder outreach in 2008; information about the Project area and impressions of stakeholders on key issues that must be addressed have been gathered in public meetings, phone conversations and written correspondence. Additionally TDX launched a Project website (www.chakachamna-hydro.com) to serve as a central clearinghouse for information. All communication is summarized in Table 6.0-1 (below) and copies of correspondence, meeting notes, and draft documents are included in Appendix 6-1.

Table 6.0-1. Summary of communications with stakeholders since January, 2008.
